

# STETTSEN OLSEN

## SOFTWARE ENGINEER

---

### EXPERIENCE

- 3 years as a Marketing and Localization Intern at Associated Food Stores
- 3 years as a Board Member and Technology Representative on the Utah Pest Control and Lawn Association
- 5 years as the Marketing Technician for Wasatch Exterminators
- 2 years in humanitarian leadership roles

---

### EDUCATION

- Software Engineering - Brigham Young University – Idaho Graduating in July 2019
- Business Associate of Arts – Salt Lake Community College

---

### PROJECTS

#### Web Development

Using Visual Studio Code, I'm currently developing webpages with HTML, CSS, and JavaScript. Thus far I have created interactive pages and a mock E-commerce webpage.

#### Android Applications

Written in Java and XML, I have created numerous simple apps that perform common Android tasks. I designed an application for a course long project. I'm leading a team that is currently developing the app. We can program from remote locations using GIT. We are using JSON to load and save data on the device.

#### C++ Programs

Over the last few semesters I have worked on Atari games that had a callback life cycle. I've also programmed a sudoku game, calendars, Mad Libs, and numerous others.

#### SQL

I spent a semester creating and modifying a mock video rental store database using SQL.

### PORTFOLIO

[stettsenolsen.gq](http://stettsenolsen.gq)

---

### PROGRAMMING LANGUAGES AND FORMATS

- Java
- C++
- HTML
- CSS
- JavaScript
- XML
- AJAX
- PHP
- JSON

---

### DATABASE MANAGEMENT SKILLS

- SQL

---

### SPOKEN LANGUAGES

- English (Primary)
- German (Fluent)

---

### ATTRIBUTES

#### Highly Malleable

Work well with all kinds of people. I adjust quickly. I'm teachable and a swift learner.

#### Well Organized and Reliant

It's my goal to ensure my work is efficient, done well, and on time.

#### Leader and Team Player

I'm optimistic and persistent when working alone or in a team to find solutions to vexing problems. I am highly energetic and radiate that energy to others.
